The following resolution was pessed unaminously by the Students'
Council at a meeting held on 18th May 1933.
C The Students' Council wishes to express as strongly as possible its complete disapproval of any alteration (whether temporary or permanent) to the existing lunch hour arrangements, on the following grounds.

- (1) That the College would cease in large part to be the centre of the corporate life of the Students as it is at present, particularly in the case of the non-residential Halls.
- (2) That the suggestion of such an alteration can only arise from a misunderstanding of the importance of the Social activities that take place in the lunch hour: such as meeting of the Students Council, General Meetings of the Union and of the Athletic Union, Committee meetings of the various Societies, gramophome concerts, dancing in the Winter, tennis in the Summer, and meetings of such Societies as cannot meet in the evenings owing to an already full programme of other Union activities.
- (3) That considerable waste of time (and in the case of the Men Students, of money spent on tram fares) would be entailed by the additional journey to and from MAZZ their respective Halls.
- (4) that the co-educational aspect of College life would be seriously impaired by increased distinction between the Halls, as is in the case of Reading University.
- (5) That the material advantages to be gained from such a change can in no wise be said to justify the break down of such a well

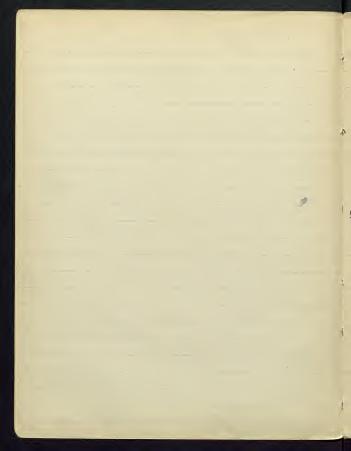

Established tradition as lunch activity, since it truly represents the normal , healthy life of the Student Body.

This resolution was brought before a General Mesting of the Students Union on 23rd May 1933, where it was formally proposed, seconded and passed with one dissenter.
